

SEEMATZ

Steering Systems for Window Wipers

SEEMATZ can offer five different steering systems for easy and safe operation. Standard are always the simple connection and the intuitive operation.

You want to switch ON/OFF every single wiper – Not always a compl. Group ?

- This is standard on all SEEMATZ steering

Your vessel are equipped with a lot of wipers and it can be difficult to see what switch operate which wiper ?

- No Problem, OCEAN & PACIFIC can be designed according to the Bridge layout.

You want to control the wipers via your Bridge-COM system ?

- Choose the PACIFIC type and connect our interface with a standard modbus to your own monitors.

OCEAN-Controller – Example

ATLANTIC-Controller - Example

PACIFIC-Controller – Example

TROPIC-Controller - Example
